Universal Mount

6" or 8" Die-Cast Aluminum Edge-Lit LED Exit Sign

Evaluated to UL 924 standard

The **Simplicity Series** combines a clean, modular design with state-of-the-art technology and ease of installation. Elegantly discreet, this designer series of exit signs will compliment the most prestigious interiors while providing mounting versatility and energy efficiency.

■ FEATURES

Reliability

The **Simplicity Series** has a five-year full warranty.

Unit Data

The Simplicity Series is constructed of die-cast aluminum, making it lightweight yet rugged. A modular design and a universal back box allow for easy installation for all mounting applications.

The aesthetically pleasing trim plate design in your choice of either flat, dome or pyramid shape accents any décor perfectly. The die-cast aluminum trim ring used for recessed applications ensures a proper seal and will eliminate light leaks. Bar hangers are included with all edge-lit signs. Our LED edge-lit acrylic face panels are the pinnacle of the industry. State-of-the-art technology allows us to extrude the acrylic panels resulting in maximum clarity and illumination proven superior to molded panels. Furthermore, our precision etched letters further enhance clarity and illumination. Available in 6 or 8-inch "Red or Green" letters. The LED strip design allows for rotation for either ceiling or wall mounting. The LED strip light source offers unequaled energy efficiency with long life legend illumination. A Nickel-Cadmium battery illuminates the sign for a minimum of 90 minutes in emergency mode. AC-only signs come wired as AC/DC signs, which operate off a remote DC power source when AC power fails. DC input is a 2-wire, 6-48Vdc universal input.

Circuitry

Fully integrated circuitry includes a 2-wire 120-277Vac AC voltage input regulator, as well as an automatic, constant-current battery charger with solid-state transfer and AC-LED monitor and test switch.

Power Requirements

120/277Vac 50/60Hz. Energy Consumption: AC-only signs use less than 2 watts, self-powered signs use 2.5 watts for single and double-face signs.

■ DIAGNOSTIC/SELF-TEST FEATURE (optional)

The self-test/diagnostic feature continuously monitors the charger assembly, battery and LED assembly current. If a fault is indicated, the external service required indicator will illuminate. The internal fault indicators will then indicate the nature of the fault. The self-test/diagnostic will self test for a minimum 30 seconds every 30 days, 30 minutes every 60 days and 90 minutes annually. Meets NFPA 101 Life Safety Code requirements for periodic testing (Self-Powered Exit only).

Slim Profile Surface Mounted

LED Edge-Lit Exit Sign

Available in Extruded Aluminum or Off-White Finishes

For Recessed Mount, please consult the factory

The Lightalarms Simplicity Economizer Series combines a slim, modular design with state of the art technology and ease of installation including field installed directional arrows. Elegant and Economical, these exit signs complement any interior design while providing mounting versatility and energy efficiency.

With the look of the Exit sign and the Simplified installation this product will be the favorite at both the Specification and Contractor level.

▣ FEATURES

- Slim-profile extruded aluminum housing
- Slim-profile die-cast aluminum canopy
- Choice of finishes: textured aluminum or off-white
- Universal surface mounting: wall, ceiling or end mount
- Click-to-open housing door allows easy access to the panel and electrical wiring
- Acrylic panel with curved contour provides superior clarity and illumination
- Legend with a choice of red or green six-inch letters, and easy to add field installed stick-on translucent directional arrows
- Choice of legend background: clear, white or mirror
- Simple, two-wire universal AC input (120V to 277Vac 60Hz) prevents installation errors
- Simple, two-wire universal DC input: 6V to 24Vdc
- Long-life LED light assures low maintenance costs and superior illumination
- Energy efficient power consumption: less than 3 Watts for selfpowered version and less than 2 Watts for AC only single or double face
- Sealed Nickel-Cadmium batteries provide 90 minutes of emergency lighting
- UL-924 listed

▣ UNIT WARRANTY*

Unit carries a 3- year full warranty

**Subject to proper installation and maintenance.*

■ Genesis GX, GXE Series

Die-Cast Aluminum LED Exit Sign
AC, AC/DC or Self-Powered Models
Evaluated to UL 924 Standard

The **Genesis "GX, GXE" Series** LED Exit sign combines visual appeal, durability and energy efficiency in a compact, contemporary design. Self-Diagnostics standard on self powered models.

■ FEATURES

Reliability

The **Genesis GX, GXE Series** has a five-year full warranty.

Unit Data

The **Genesis Series** constructed of precision die-cast aluminum housing, features invisible, universal chevrons and mounting knockouts. A low profile mounting canopy is included with all exit signs for universal top, end or back mount. High intensity LED's with diffuser disperse light and enhance brightness for a full, even illumination. LED's draw less than 2 watts of electricity for either single or double face signs. Long life, maintenance-free, sealed Nickel-Cadmium battery. AC-only signs come wired as AC/DC signs, which operate off a remote DC power source when AC power fails. DC input is a 2-wire, 6-48Vdc universal input. Self-Powered models are self contained, all circuitry and batteries are contained inside the exit housing.

Circuitry

Fully integrated circuitry includes a 2-wire 120-277Vac AC voltage input regulator, as well as an automatic, constant-current battery charger with solid-state transfer and AC-LED monitor and test switch.

■ DIAGNOSTIC/SELF-TEST FEATURE (STANDARD)

Diagnostic / Self Test circuitry is standard on all self-powered models. This circuitry is programmed to ensure the exits readiness and reliability by continuously monitoring every critical function of the unit. If a problem occurs, a single service required indicator illuminates immediately. A detailed diagnostic display is located on the inside of the exit sign, out of sight from the general public. The detailed diagnostic display inside the exit sign will further indicate the nature of the fault. The self test will test the unit for a minimum 30 seconds every 30 days, 30 minutes every 60 days and 90 minutes annually.

■ Genesis GXEM Floor Proximity Series

Genesis Master with Remote Floor Proximity LED Exit

Surface or Recessed Mount

Evaluated to UL 924 Standard

The **Genesis GXEM Floor Proximity Series** are premium die-cast exit signs that combine style with superior performance and durability. This series can be surface or recessed mounted at the floor level and are available as AC-only, AC-dual circuit and as a DC-remote fixture supplied by a "Master" Genesis Exit sign.

■ FEATURES

Reliability

The **Genesis GXEM Floor Proximity Series** has a five-year full warranty.

Unit Data

The **Genesis "Master"** units are constructed of die-cast aluminum. The Floor proximity remote units' housing and stencil face, finished in white or black, are constructed of rugged steel. When the floor proximity remote unit is ordered with a brushed aluminum finish, the stencil face is aluminum. The Floor proximity remote sign is available in slim line surface mount or recessed. All connecting hardware is included. The tamper proof screws and clear, high impact polycarbonate shield make sign vandal resistant. The LED's are very reliable, provide even illumination and low maintenance costs. The Red LED's draw less than one watt.

The remote floor proximity exit signs are wired to a single face Genesis LED "Master" exit, which is mounted above the door. The remote floor proximity unit can be mounted up to 10 feet away from the Master sign. This "Master" sign will power and control both signs in AC and emergency mode (both signs are 120/277 volt for master/floor proximity operation).

Circuitry

Fully integrated circuitry includes an automatic, constant-current battery charger with solid-state transfer and AC-LED monitor and test switch. Improved diagnostic self-test feature is standard.

Power Requirements

120/277Vac

■ DIAGNOSTIC/SELF-TEST FEATURE (STANDARD)

The self-test/diagnostic feature continuously monitors the charger assembly, battery and LED assembly current. If a fault is indicated, the external service required indicator will illuminate. The internal fault indicators will then indicate the nature of the fault. The self-test/diagnostic will self test for a minimum 30 seconds every 30 days, 30 minutes every 60 days and 90 minutes annually. Meets NFPA 101 Life Safety Code requirements for periodic testing (Self-Powered Master Exit only).

LED Die-Cast Aluminum Exit

Universal Mount

AC, AC/DC or Self-Powered Exit Signs

UL Listed

The Galaxy "XLD, XLED" Series exit signs save energy while providing excellent visual performance. This series offers universal mounting capabilities as well as long lasting LED performance.

FEATURES

Reliability

The Galaxy "XLD, XLED" Series has a five-year full warranty.

Unit Data

The Galaxy "XLD, XLED" Series housing is constructed of die-cast Aluminum and features invisible, universal chevron and mounting knockouts. All self-powered models are self contained, all circuitry and batteries are contained inside the exit. All AC-Only signs come wired as AC/DC signs which operate off a remote DC power source when AC power fails. Long-life, high-performance, low power consumption, provide an even illumination in normal and emergency modes. A low profile mounting canopy is included with all exit signs for universal top, end or back mount.

Choice of Models

AC-Only Models: 120 through 277Vac, 50/60Hz universal input. Includes a slimline canopy for top and end mounting.

AC/DC Models: 120 through 277Vac, 50/60Hz universal input with a 6 to 24Vdc wire harness. Includes a slimline canopy for top and end mounting.

Self-Powered Models are Self Contained, batteries and circuitry are located inside the exit housing: 120 through 277Vac, 50/60Hz universal input. Sealed maintenance free Nickel-Cadmium battery provides 90 minutes of emergency illumination. Includes a slimline canopy for top and end mounting.

DIAGNOSTIC/SELF-TEST FEATURE (STANDARD)

Diagnostic / Self Test circuitry is standard on all self-powered models. This circuitry is programmed to ensure the exits readiness and reliability by continuously monitoring every critical function of the unit. If a problem occurs, a single service required indicator illuminates immediately. A detailed diagnostic display is located on the inside of the exit sign, out of sight from the general public. The detailed diagnostic display inside the exit sign will further indicate the nature of the fault. ACCESSORIES

■ Galaxy XL Series

Die-Cast Remote Capacity Exit
Sealed Lead-Calcium or
New Nickel-Metal-Hydride Battery
UL Listed

The Galaxy "XL" Series are self-powered LED exit signs with excess battery capacity designated to power remote emergency lights and exit signs.

■ FEATURES

Reliability

The Galaxy "XL" Series has a five-year full warranty.

Unit Data

The Galaxy "XL" series has a housing constructed of die-cast Aluminum, each unit comes standard with a power canopy that houses the battery, input transformer and printed circuit board. The standard Galaxy exit comes with a black frame and a brushed aluminum face, optional colors are available. The Galaxy series may be ceiling, end or back mounted (single-face exit only) to the power canopy. The power canopy surface mounts directly to a junction box. Long-life, high-performance, low power consumption provide an even illumination in normal and emergency modes. AC-only signs come wired as AC/DC signs, which operate off a remote DC power source when AC power fails. DC input is a 2-wire, 6-48Vdc universal input.

Circuitry

Fully integrated circuitry includes an automatic, constant-current battery charger with solid-state transfer and AC-LED monitor and test switch.

Power Requirements

Input : 120/277Vac, 60 Hz, 0.06/0.03 Amp max.

Output: 6Vdc, 9W, 12W and 24W

■ DIAGNOSTIC/SELF-TEST FEATURE (optional)

The self-test/diagnostic feature continuously monitors the charger assembly, battery and LED assembly current. If a fault is indicated, the external service required indicator will illuminate. The internal fault indicators will then indicate the nature of the fault. The self-test/diagnostic will self test for minimum 30 seconds every 30 days, 30 minutes every six months and 90 minutes annually. Meets NFPA 101 Life Safety Code requirements for periodic testing.

Extruded Aluminum LED Exits and Combination Units

Sealed Maintenance-free Lead Calcium or

Nickel-Cadmium Battery

UL Listed

AC-Only exit signs are UL listed for use in Damp Locations

The **X3 Series** exit signs and power packs combine versatility, energy efficiency and performance in a moderately-priced package.

▣ FEATURES

Reliability

The **X3 Series** has a three-year full warranty (excluding lamps and fuses).

Unit Data

The **X3 Series** housing is constructed of extruded aluminum and features universal chevrons and a bottom aperture that provides a down-light effect. Universal exit signs are supplied with canopy kit, extra stencil and diffuser set to permit any mounting either as single or double face. Long-life, energy-efficient, LED light source reduces maintenance and energy costs.

LED Combination units have additional 13-19 watts remote capacity with (2) 6-watt mounted heads, depending on the model.

Light Source

The unit comes standard with two 6 volt, 6-watt high intensity wedge base incandescent lamps. Other lamp options are available, please refer to Lamp Chart.

■ Grande Series

Specification-grade, LED Thermoplastic,
universal-mount, snap-fit exit sign

Replaces Quickie "XQ" Series

The Lightalarms **Grande Series** is a compact exit sign with an all-in-one, snap-fit design. Easy to install and affordable, the **Grande Series** exit sign is ideally suited for commercial and spec-grade applications.

▣ FEATURES

- Durable, injection-molded, thermoplastic housing
- Standard Universal, supplied with two faceplates, backplate for wall mount and easy install canopy for end and ceiling mounting
- Universal, field-selectable snap in/out chevrons
- Indirect refractive technology provides bright, even illumination
- Long-life LED light source assures low maintenance costs and superior illumination
- Energy efficient power consumption: less than 3.5 watts for selfpowered version and less than 3 Watts for AC only single or double face
- Dual voltage input: 120 / 277Vac
- UL-924 listed
- All models are UL listed for damp location
- Optional Improved Diagnostic circuitry, flasher/buzzer, fire alarm-activated flasher
- Optional vandal-resistant shield with tamper proof screws

▣ UNIT WARRANTY*

5 years of full warranty.

**Subject to proper installation and maintenance.*

Thermoplastic LED Exit and Combination Unit
Sealed Maintenance-Free Lead Calcium or Nickel-Cadmium Battery
UL Listed

The **X2 Squire Series** is compact, easy to install and affordable. This series is ideally suited for commercial and institutional applications.

▣ FEATURES

Reliability

The **X2 Squire Series** has three-year full warranty (excluding fuses and lamps).
Unit Data

The housing is constructed of a durable thermoplastic, available in mist-white or black. Units come standard with two stencil plates, red diffusing lens and backplate for universal wall, end or ceiling mount. Stencil and open face signs have programmable directional chevrons. The light source of the exit sign will be red LED technology, which will provide a uniform illumination on the legend. Batteries provide 90 minutes of emergency operation.

Lamp

Standard emergency illumination is provided by two, 6-watt incandescent, Par 18 or Par 36 size lamps assemblies. These heads are molded of high impact thermo-polymer material. Heads are mounted directly to the front of the power pack or can be remotely mounted. MR16 and quartz bi-pin halogen lamps are also available (Mini Heads only).

Circuitry

Fully integrated circuitry includes an automatic, battery charger and AC-LED monitor and test switch.

■ Quickie II Series

Thermoplastic LED Exit Signs

AC-Only and Self-Powered Exits

Sealed Maintenance-free Nickel Cadmium Battery

Damp location listing is standard on all models

UL Listed

The **Quickie II Series** is a compact, all-in-one snap-together design. Easy to install and affordable, the Quickie II Series is ideally suited for any commercial application, especially those in which large numbers of exit signs are required.

▣ FEATURES

Reliability

The **Quickie II Series** has a three-year full warranty.

Unit Data

The housing is constructed of thermoplastic material; available in mist-white. The design incorporates a "snap in" canopy for top or end mount, (virtually tool free installation), Universal mounting comes complete with two face plates, one backplate and canopy.

The light source of the exit sign will be red LED technology, which will provide a uniform illumination on the legend. Batteries provide 90 minutes of emergency operation.

Emergency Models

- Replaceable, sealed Nickel-Cadmium battery
- Provides a minimum 90 minutes of continuous emergency illumination
- Batteries recharge per UL924 specifications
- All exit sign models consume less than 2.5 watts

Power Requirements

120/277Vac, 50/60Hz

■ Quickie II “QLXN500-SQ” Series

Quickie II – Thermoplastic LED Combination Units
Sealed Maintenance-free Lead Calcium battery
Damp location listing is standard on all models
UL Listed

The **Quickie II “QLXN500-SQ” Series** is our combo unit with field adjustable heads to accommodate job site mounting requirements.

▣ FEATURES

Reliability

The **Quickie II “QLXN500-SQ” Series** has a three-year full warranty. (excluding lamps and fuses)

Unit Data

The housing, faceplates and canopy are constructed of a durable high-impact thermoplastic material (94,5VA Flame rating) available only in mist-white. The combo is suitable for wall or ceiling mount and comes standard with two faceplates, a backplate and a snap-fit canopy that requires no hardware to secure to the unit.

The two, 6 volt, 6-watt wedge base, glare-free emergency lighting heads can be positioned as top mount or side mount without disassembly or rewiring of the unit.

The light source of the exit sign will be red LED technology, which will provide a uniform illumination on the legend. LED lamps are operated in normal (AC input) and emergency (DC input) modes.

The combo is powered in the emergency mode by a sealed, maintenance-free Lead Calcium battery that is pre-wired to accommodate an additional battery should a remote load be required. Remote capacity – may power additional remote heads (up to 6 Volt, 12 Watt) with additional battery

Lamp

The combo comes standard with two fully adjustable, glare-free, 6 Volt, 6 Watt wedge base lamps.

Power Requirements

Universal voltage, 2-wire input 120/277Vac, 60Hz

Nema-4X Self-Powered LED Exit Sign

Standard with Diagnostic/Self-Test Feature

Sealed Maintenance-Free Nickel-Cadmium Battery

Standard Damp Location Listing (10°C - 40°C) (50°F-104°F)

UL Listed

The **Severe "XV" Series Exit** is housed in an industrial-grade polyvinyl chloride enclosure. This exit was designed specifically for harsh environments that would strain standard exit signage such as schools, transit platforms, parking garages, wet and cold locations as well as any location prone to vandalism.

■ FEATURES

Reliability

The **Severe XV Series** exit has a five-year full warranty.

Unit Data

The housing is fabricated of a polyvinyl chloride enclosure, which is fully gasketed around the lens and canopy to prevent water infiltration. The sealed faceplate is constructed of a heavy-duty, vandal-resistant polycarbonate and features an evenly illuminated legend. This faceplate is fastened with stainless steel tamper-resistant screws and the **Severe XV Series** comes standard with a magnetically operated test switch. Diagnostic/Self-Test circuitry is standard on all self-powered models.

The light source of the exit sign will be red LED technology, which will provide a uniform illumination on the legend. Models can be wall, end or ceiling mounted. Legend and chevron complies with UL requirements. Sealed, maintenance-free Nickel-Cadmium batteries offer superior performance, long life and 90 minutes of emergency operation. AC-only signs come wired as AC/DC signs, which operate off a remote DC power source when AC power fails. DC input is a 2-wire, 6-48Vdc universal input.

Applications

- High Abuse Areas,
- Vandal Prone Areas,
- Damp and Wet Locations,
- NEMA 4X rated,
- Hose Down Areas,
- Cold Temperatures,
- Food Processing/Preparation

High Performance Circuitry

- Self Contained... Batteries & circuitry located inside the exit housing.
- Continuous self-diagnostic monitoring and monthly self testing.
- Fully automatic charger is solid state.
- Sealed, maintenance-free nickel cadmium provide 90 minutes of emergency operation.
- Batteries recharge per UL924 requirements.

The **Severe XV Combo Series** is designed and engineered with style in mind and sets new standards for emergency lighting in today's toughest environments. The Severe XV is suitable for industrial and commercial applications as well as all public facilities.

▣ FEATURES

Reliability

The **Severe XV Combo Series** has a five-year full warranty (excluding lamps and fuses).

Unit Data

The **Severe XV Series** combo Nema-4X rated housing can withstand moisture, dust and corrosion. The faceplates are molded of heavy-duty, vandal-resistant polycarbonate and the rugged UV-stabilized thermoplastic body will not dent, peel or corrode. The combo unit is equipped with stainless steel tamper-proof screws. A special bit is provided with every unit. The combo comes in a choice of three colors: mist white, black or gray. The Severe XV combo comes standard with a universal mount canopy kit allowing the unit to be end, ceiling or wall-mounted. A universal knockout pattern allows direct mounting on the junction box. Knockouts are also available for conduit entry and are located on the top and both sides of the unit.

Light Source

An innovative, fully field adjustable lamp head assembly offers the choice of MR16 halogen lamps up to 12V, 12W or high-efficiency, 4-watt, MR16 LED lamps. Long life, energy efficient technology red LED illuminated EXIT legend is Energy Star compliant.

Charger

The **Severe XV Series Combo** unit is equipped with the fully automatic Lightalarms Improved Diagnostic micro-controller board. The micro-controller tests, detects and indicates battery, charger circuitry, lamps or LED strip failures. An external LED signals a general service alarm while an internal diagnostic LED display indicates the nature of failure. The unit performs periodical self-tests of minimum 30 seconds every 30 days, 30 minutes every six months and 90 minutes annually. The board is factory preset to non-audible diagnostic and a 15 minutes time delay. These functions can be enabled or disabled during installation. The equipment comes standard with a dual voltage input of 120/277 Vac.

■ XT Series

Self-Luminous Exit Sign

Non-Electric, No Wiring or Energy Required

UL Listed

The **XT Series** signs are suitable for use in hazardous, explosive, corrosive, humid or any other harsh environment. The XT Series is not dependant upon the use of electrical power, either internally or externally.

■ FEATURES

Reliability

The “**XT**” **Series** exit signs shall be spark free and suitable for use in humid, corrosive or explosive environments. Lightalarms will replace, free of charge, any product in which the luminosity is found to be defective during its specified luminous life, or which falls below specified luminous life.

Unit Data

The **XT Series** Self-Luminous exit sign frame, backplate and canopy shall be of ABS molding. Tamper proof assembly with no removable fasteners. Frame finishes include white or black. The signs can be mounted flush to wall or ceiling without a canopy. The faceplate is constructed of acrylic (optional Polycarbonate) .13 inches thick. The legend is constructed of non-glare polycarbonate, .015 inches thick, open letters, field programmable arrows and background colors include red or green. Contrast ration for both conditions shall exceed .5 and meet requirements of UL924 and NFPA. Non-Electric - These exit signs do not require batteries, lamps or electricity for illumination. Electrical wiring, power, lamp replacement and maintenance are not required.

Illumination is provided by phosphor-coated borosilicate tubes filled with tritium gas. Tritium gas energizes the phosphor-coated tubes in the sign. The low energy beta emission of tritium striking the phosphor coating inside the pyrex® glass tubes causes illumination to be generated.
